## ABOUT US

### “THIS IDEA’S GOT LEGS!”

For Landpod creators Steve and Jake, it all began - as most great ideas do - with a passion for getting closer to nature, and the love of a challenge! Their mission was to create a “glamping pod for a music festival that will keep you feeling human... and won’t sink in a sea of tents”.

Landpod’s innovative, all-terrain designs have evolved into the UK’s leading pop-up glamping pod supplier. We are a family business and make all of our Pods in our workshop in the heart of Staffordshire. With multiple customisable designs available to hire or buy, our mission is to make it as easy as pie for everyone to enjoy the great outdoors in absolute comfort.

# WHY CHOOSE LANDPOD?

IT GOES WITHOUT SAYING: EVERY SINGLE LANDPOD IS 100% HANDCRAFTED IN GREAT BRITAIN

The following are features of every Landpod, as standard

No permanent fixtures or fittings means there's no need for planning permission anywhere you go

The adjustable legs elevate you off the ground while you sleep, allowing you a night in comfort wherever you are

A convenient flip-up waterproof cover allows you to enjoy the great outdoors whatever the weather

The eye-catching design is tailored perfectly to those seeking a truly unique and unforgettable outdoor experience

Designed and built with the environment in mind, the all-terrain legs keep the Pods off the ground and leave no trace

The flat pack design allows for effortless transportation, storage and movement around your garden

## What about foundations and a level surface?

Relax. All Landpods come with inbuilt zen; the clever adjustable legs elevate your Pod off the ground, meaning there's no need for any expensive surface prep. Landpod can build your new Pod anywhere.

## How costly is the upkeep?

Our Pods are designed to last. Inspired by nature, each element of every Pod adds to its surroundings both aesthetically and sustainably. And the maintenance-free designs mean you can keep your chosen Pod outside all year round.

## How waterproof is it?

Extremely! We have 2 roof options for you:

- 1) Heavyweight Blackout PVC cover
- 2) Timber Cladded Roof

Both come with the option of an additional thermal space blanket for an extra cosy night's sleep

The Cosy Cocoon is a flatpack dream, perfect for adventurous couples who are looking for off-grid adventures with zero compromise on comfort.
